

Good Morning!

**Have a seat anywhere in
the circle next to an
instrument different than
yours!**

**MAKE SURE YOU HAVE
A PENCIL**

Reflecting Upon Our First Run-Through

- Put your name at the top of your paper
- Watch the video of rehearsal and jot down your thoughts on our performance
- Things that went well, things that didn't go so well, things you think we can improve upon, anything else you saw or heard
- Think not only about things relating to you, but also the rest of your section as well as other sections

-At the bottom, rate your performance yesterday on a scale from 1-10 (1 being you didn't play at all and contributed nothing to the performance, 10 being you were very involved in the rehearsal process, performed your part with excellent intonation and style, were listening across the ensemble and were conscientious of other parts going on around you.

-Finally, rate the performance of the band yesterday on a scale from 1-10 (see criteria above).

-Turn in your reflections to me at the end of rehearsal.
